

Hussnia Mohammed

website developer

Software Engineering student at Bahir Dar University with strong interest in web development, data structures, and software systems. Experienced in building real-world projects using C++, Java, and modern web technologies. Passionate about problem-solving and building scalable applications.

SKILLS

- ♦ Programming Languages
- C++
- Java
- JavaScript
- HTML5
- CSS3
- ♦ Frameworks & Libraries
- React (Basic Level)
- Node.js (Basic Understanding)
- ♦ Databases
- MySQL
- ♦ Tools & Platforms
- Git & GitHub
- Visual Studio Code
- Figma
- Vercel (Deployment)
- ♦ Core Concepts
- Data Structures & Algorithms
- Object-Oriented Programming
- Problem Solving
- Web Application Development

EDUCATION

BAHIRDAR UNIVERSITY

Bachelor Of software engineering
2024 - 2028

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Team Collaboration
- Time Management
- Fast Learning Ability
- Communication Skills

EXPERIENCE

PROJECTS

Website (LIVE PROJECT)

<https://prayer-time-zikir-counter.vercel.app/>

- Prayer time display system and Zikir counter
- Built using HTML, CSS, JavaScript
- Responsive and user-friendly design
- Fully deployed web application

Inventory Management System (C++)

- Developed using Data Structures (DSA) concepts
- Implements Doubly Linked List for storage
- Stack for undo operations
- Queue for order processing system
- Features: Add, update, delete, search, sort items

Weather Application

- API-based weather information system
- Displays real-time temperature and conditions
- Built using JavaScript

Todo List Application

- Task management system
- Add, delete, and manage tasks
- Simple UI with JavaScript functionality

Multi Chat System

- Socket programming based chat system
- Real-time message communication concept

Number Countdown Project

- JavaScript-based countdown timer
- DOM manipulation practice project

LANGUAGE

• amharic

• English
